Homepage: <http://2018.internetday.vn>

1. Morning Plenary Session

In the context of the World Economic Forum (WEF) launching project Digital ASEAN in April 2018 with the goal of building an ecosystem and digital economy in the region based on five key factors of Digital Transformation includes: Data, Connection, Human resources, Electronic Payment and Network Security. In Viet Nam, the Ministry of Information and Communications has also set the goal of developing Vietnam's digital eco-system to promote sustainable socio-economic development, contributing to national defense and security. All that reasons lead Organizer to choose "Internet and Viet Nam Digital Ecosystem" to be the main theme of Viet Nam Internet Day 2018 event.
